MAXWELL CUSTOM INSTALL SPEAKERS

KLH Maxwell custom install speakers deliver high-performance, clear and concise sound right to your home without taking up any valuable shelf space or floor space. Available in three different models, the Maxwell engineered enclosures are sealed and tuned for outstanding custom architectural solutions. Whether you use your Maxwell as a left, center, or right channel, it will always produce a thrilling, dynamic sound while maintaining a flawless appearance that complements the décor of any home. Referred to as “a custom install dream,” our Maxwell custom install series is an immersive speaker system offered at a very reasonable price point with a guaranteed lifetime warranty. These speakers effortlessly reproduce the artist’s original soundtrack with such astonishing natural detail and deep visceral bass that you will swear you’re sitting at a live concert venue while relaxing in the comfort of your home.

In case you need a second opinion, here is what our friends at Ekho Home Theater Group think about the KLH Maxwell series:

“Our customers who now are enjoying KLH at home rave about the sound. The performance of the entire line goes well above their price point. Simply an exceptional value... We are so thrilled to have KLH in our line-up. The Maxwell series is a custom install dream... KLH has a better, more versatile option. The Maxwell speakers have a backbox as part of their design, built to the exact volume the drivers need to ensure performance that matches their freestanding counterparts.

Install is a breeze... Final system install is forthcoming, and then we get a chance to make these speakers sing!”

“Where the Maxwells shine is in the construction and the backbox. These speakers deliver as if they were free-standing because of the enclosure, and sonically, don’t suffer from being architectural speakers. All the sound energy and clarity is focused into the room and not the empty wall or ceiling cavity. There are very few options that match that capability, especially in a retrofit market where building an enclosure in the wall or ceiling isn’t a possibility.”

NEW RESELLERS

We are pleased to welcome aboard the following KLH resellers!

International

- Top Audio Video (Bulgaria)
- Limerick HiFi Bits (Ireland)

American

- End of an Ear (Austin, TX)
- Advantage Sight & Sound (Montrose, CO)
- Adorama (New York City, New York)

We encourage all our dealers and resellers to send us photos of KLH products in demo so we can reshare them on our social media and give you exposure in return! Thank you!

MAY PRODUCT REVIEWS

SOUNDSTAGE ALBANY II REVIEW

GOING GREEN

As an environmentally conscious company, KLH has taken steps over the years to become more responsible and sustainable. This movement is especially evident when it comes to our product packaging. When purchased, all KLH speakers are wrapped with expanded polyethylene (EPE) foam packaging and secured inside recyclable cardboard packaging. We use EPE rather than Styrofoam because it is much more sustainable, easily recyclable, and 100% nontoxic.

On select KLH speakers, the wood veneers are renewable, and the aluminum and zinc faceplates are recyclable. We chose to utilize wood and metals to avoid unsustainable resources like plastic or vinyl. For instance, our most recent product release, the Model Five, uses nearly no plastic in neither the product nor the packaging! KLH is helping to better our ecosystem one speaker at a time.

MOVIE/SONG RECCOMENDATIONS OF THE MONTH:

Crank up your speakers and immerse yourself into the dynamic sound of these songs and movies!

Songs:

- Mt. Joy “Silver Lining” (Alternative)
- Petra Magoni & Ferruccio Spinetti “Fever” (Pop)
