## Features

- Handcrafted in Canada by skilled artisans using only the finest furniture-grade wood veneers harvested from North American sustainable forests.
- Structurally reinforced 3/4" MDF enclosure to suppress internal resonances which color sound.
- High-efficiency 1" titanium dome suspension tweeter with ferrofluid-cooled ceramic motor structure, resulting in improved linearity for smooth, clean, and effortless sound.
- The mid-bass and dual bass drivers feature non-resonant die-cast aluminum baskets with butyl rubber rolled surrounds for superior power handling and efficiency.
- Custom-designed multi-element crossover network utilizing premium iron core inductors and mylar capacitors.
- Dual 5-Way gold-plated binding posts.
- Packaging made from recycled cardboard and EPE to reduce carbon footprint and protect our environment.
- Low-profile magnet attached grille.
- Industry-leading 10-year warranty.
